Front-End Developer with the knowledge of React.js, building dynamic, responsive, and user-friendly web applications using efficient state management and reusable components. Graduated with a Bachelor of Science in Psychology, providing a solid understanding of user behavior and cognitive processes. Eager to leverage psychological insights to enhance user experience and drive effective design in the IT field.

🎓 EDUCATION

2019 – 2022	Bsc Psychology, Mohamed Sathak arts and Science College	Chennai, India
-------------	---	----------------

📁 PROJECTS

2024 – 2024	Zi Pizza, E-commerce  Zi Pizza e-commerce site was built using React.js and React Bootstrap, implementing interactive UI components and custom CSS for user experience. Optimized for performance, accessibility, and responsiveness across all devices.
2024 – 2024	Crud, Api project  Built a CRUD (Create, Read, Update, Delete) application using React.js and a JSON Fake API for data management. Implemented user-friendly interfaces to perform operations on mock data, allowing users to add, view, update, and delete records. Leveraged React hooks (useState, useEffect) for efficient state management and dynamic updates
