👤 Personal Portfolio

Profile

A results-driven **Front-End Developer** proficient in React.js and React Native, focusing on building scalable, high-performance web and mobile applications. Skilled in state management, React hooks, and API integration, I prioritize delivering efficient, user-centric solutions with clean, maintainable code. I founded **Zii Techs** (registered under UDYAM - Udyam-TN-34-0076422) to offer freelance services in custom software development, web and mobile solutions, and technical consultancy. Committed to continuous learning, I aim to create innovative, user-driven solutions that align with both business and user needs.

Skills

Web Development
React js, HTML , CSS, Tailwind CSS, Bulma, JavaScript (ES6+), React Hooks, React Router, React Icons, Vite.

App Development
React Native, Expo (Expo CLI, Expo Go), React Native Navigation, React Native Async Storage, Expo AV (Audio & Video Handling)

Backend & Authentication
Firebase Authentication, Node.js & Express.js (Basic), MongoDB Atlas (Basic)

API Integration & Data Management
React Context API, Ajax, Axios, Fetch API, Promises, Async / Await, JSON, CRUD Operation.

UI & Styling
React Bootstrap, Material UI, Tailwind CSS, Styled Components, Responsive Design.

Version Control & Development Tools
Git & GitHub, Microsoft Visual Studio Code, Postman API Testing, React Developer Tools

Real-Time Project

2025/02	**Hayas – Grocery and Food Delivery Platform** **Technologies :** React.js, React Native, CSS, Node.js, Express.js, MongoDB Atlas.

Website Link ⬀
App Link ⬀

- **HAYAS** is a user-friendly grocery and food ordering platform developed using **React.js for the website and React Native for the mobile app**, tailored for the Tirunelveli district and surrounding areas.
- Users can easily browse a wide range of grocery and food products, select items, and add them to their cart.
- **Firebase Authentication** ensures secure registration and login, protecting user privacy and data.
- Once an order is confirmed, users are seamlessly redirected to WhatsApp to complete the transaction and communicate with the service provider.
- The platform features a clean, intuitive interface, making grocery shopping quick and convenient.

- **HAYAS** regularly offers promotional advertisements and videos, keeping users informed about the latest deals and updates.
- The app and website provide a smooth, optimized experience, ensuring accessibility across devices.

Personal - Projects

2025/01

Admin Interface Job Portal ⬈
Technologies : React.js, React Router, CSS, Node.js, Express.js, MongoDB Atlas.

- Designed and developed a **robust admin interface** for **efficient job management**, enabling users to **post, edit, delete, and update** job listings with a streamlined, **user-friendly experience.**
- Implemented **React Router** for dynamic page navigation and ensured full responsiveness across devices to enhance user accessibility.
- Engineered the back-end with **Node.js**, **Express.js**, and **MongoDB Atlas**, ensuring secure and efficient storage, retrieval, and management of job data.
- **Enhanced backend functionality with AI-assisted guidance** (via ChatGPT) for optimization and best practices in coding.

2024/12

Zii Pizza – E-commerce ⬈
Technologies: React.js, React Bootstrap, CSS

- Developed an elegant and user-centric e-commerce platform for a pizza business, focusing on seamless navigation and an attractive, responsive design.
- Utilized **React.js** and **React Bootstrap** to create a modular, scalable front-end, ensuring the site is fully responsive across a range of devices.
- Applied **CSS** for custom styling, enhancing the overall visual appeal and delivering a modern, engaging user interface.
- Optimized the UI/UX for ease of use, allowing customers to navigate the website effortlessly and make selections with minimal steps.

2024/11

CRUD Operation ⬈
Technologies: React.js, JSON Fake API, CSS

- Developed a CRUD application using **React.js** and **JSON Placeholder** API for managing user data (name, email, website) with real-time updates.
- Implemented **React hooks** (**useState**, **useEffect**) for state management and dynamic data handling.
- Designed an intuitive, responsive UI with **CSS**, enabling seamless operations (Create, Read, Update, Delete) on user records.

Experience

2022 – 2024 Chennai, India	**Front Office Executive** *Pine Tree Signature Hotel* ⬈

Education

2019 – 2022 Chennai, India	**Bsc Psychology** *Mohamed Sathak College of Arts & Science*
