EDUCATION

Mohamed Sathak arts and science college, Chennai — *Bsc psychology*

2019 - 2022

Front-End Developer with the knowledge of React.js, building dynamic, responsive, and user-friendly web applications using efficient state management and reusable components. Graduated with a Bachelor of Science in Psychology, providing a solid understanding of user behavior and cognitive processes. Eager to leverage psychological insights to enhance user experience and drive effective design in the IT field.

PROJECTS

1.Project: Zi Pizza — *e-commerce site*

Zi Pizza e-commerce site was built using React.js and React Bootstrap, implementing interactive UI components and custom CSS for user experience. Optimized for performance, accessibility, and responsiveness across all devices.

2.Project: CRUD Application with React.js

Built a CRUD (Create, Read, Update, Delete) application using React.js and a JSON Fake API for data management. Implemented user-friendly interfaces to perform operations on mock data, allowing users to add, view, update, and delete records. Leveraged React hooks (useState, useEffect) for efficient state management and dynamic updates

3.Project: To-DO-List

Developed a dynamic and responsive To-Do List application using HTML, CSS, and JavaScript, enabling users to efficiently manage and track tasks. Implemented key features such as task creation, deletion, and persistence with local storage for seamless user experience..

4.Project: Animation 001

Developed a fully animated submarine, complete with fish swimming and bubble effects, to simulate an underwater scene.Implemented interactive "on/off" buttons to toggle the visibility of the fish and other dynamic elements, enhancing user control.
